

President: Prof. George Chroussos
Vice-presidents: Prof. Dionysios Cokkinos and Prof. Athanasios Papavassiliou
G. Secretaries: Prof. Maria Moschovi, Mrs. Maria Tsaboula
Members: Prof. Panos Papagiannakopoulos, Mr. Evangelos Bonoris, Ms. Elena Siampou Dr. George Sakellaris, Mr. Spyros Adamopoulos

Green & White Biosciences

- Co-Existence Issues
- Biosafety and Bioremediation
- Biofuels and Biodegradable Materials
- Environmental Biotechnology
- Molecular Farming
- Special Training Course:
Public Perception of Bioscience & Biotechnology Issues through Mass Media

Bio-Health

- Oncology: Breast Cancer and Monoclonal Antibodies, Cervix Cancer
- Diabetes
- Infectious Diseases (Aids, Influenza)
- Neurodegenerative Diseases (Parkinson's, Alzheimer's, Disseminated Multiple Sclerosis)
- Coronary Artery Diseases
- Haematology – Rheumatology – Metabolic Diseases (Thalassemia)
- Gene Therapy

Bio-finance & Biotechnology Transfer

- Government Initiatives to address biological issues and problems
- Clusters and Technology Parks
- Technomesiteia: collecting & managing Greek bio-intellectual property
- Technology Transfer:
 - Part A:
From research to production: Greek and European perspective
 - Part B: Case Studies:
 - Telemetrics
 - Biomedical Technology
- Technological platforms

IGBF1 & IGBF2 (www.igbf.gr) took place in June 10 2004 and in July 1 2005 respectively, with great success. IGBF1 & 2 scored more than 2000 participants, 140 international prestige speakers from academic institutions and private companies from Europe, Northern America, Northern Africa and Middle East. IGBF1 & 2 also accommodated an EXPO as well as B2B and Business Development meetings.
