Meet customers, generate business and contribute to trends at the most important market place and idea forum for sustainable recycling, energy and mobility.

Where do you meet your customers?

Meeting new customers, connecting with existing clients, keeping an eye on the competition – is it this and more that you expect from a trade show?

As an exhibitor at the world's only exhibition on energy recovery from waste and biomass you are just in the right place. Messe Bremen and Freesen & Partner are bringing together a winning combination of industry know how and professional organization skills to make sure your participation is a success.

85% of the past *waste to energy* exhibitors confirmed that they met or even surpassed their trade show goals.

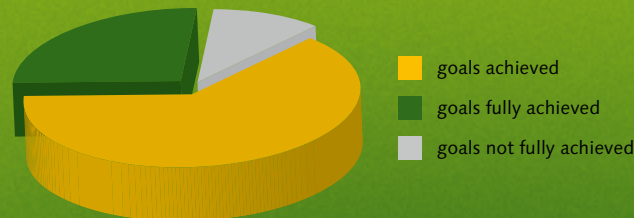

"The quality of visitors at waste to energy is excellent. This is where we exactly meet our target audience. Therefore, the exhibition is a firm date in our calendar."

Michael Feldmann, WULFF Deutschland GmbH

"The waste to energy offers attendees the professional platform for in-depth information exchange in a pleasant environment. Therefore, ThyssenKrupp Xervon Energy GmbH, an internationally renowned service company for all aspects of power plant technology, will again be present with a booth at the next trade show and bring a team of engineers from each business sector."

Martin Höbler, ThyssenKrupp Xervon Energy GmbH

Did the exhibitors achieve their goals?

The topics of the 5th *waste to energy*

- waste as a resource, secondary fuels
- biomass, biogas, biofuels
- material flow management
- separation & sorting
- industry power plants
- biogas plants
- residues
- shredding & grinding
- and many more ...

For the complete list of topics visit:
www.wte-expo.com

For the next *waste to energy* in May 2010 more than 160 exhibitors and more than 2000 trade visitors from Germany and abroad are expected.

Visitor profile

- waste experts from the industry, commerce, the service and the public sector
- environmental specialists from federal, state and municipal institutions
- energy experts from the public and private sector
- plant and landfill operators
- fleet managers
- waste management and recycling companies
- engineering bureaus
- investors
- representatives from research and education
- legal experts from Germany and the EU

While the exhibitors came from seven countries, *waste to energy* 2008 welcomed visitors from altogether twenty-one nations.

More than 50% of the *waste to energy* attendees travel more than 300km to the trade show.

65% of the attendees want to learn more about new technologies and systems.

Exhibiting options and pricing

Exhibit space

Exhibit space at *waste to energy* 2010 is available from EUR 170/m² (minimum requirement 12 m²). Many of the booths are laid out as attractive corner locations, thus offering ideal conditions for your presentation.

Special Offer Package

With the Special Offer Package we provide first-time exhibitors and organizations with a limited budget with a cost-effective solution. For a flat fee of EUR 1,850 you can exhibit on a fully equipped information booth (9 m²).

Early-Bird Discount

Take advantage of our early-bird discount of 10% on registrations sent in by 10 November 2009.

Free extra services

Always included in the price are many extra services you have to pay for at other events: e.g. your exhibitor catalog entry, online exhibitor listing, free exhibitor passes and customer invitations.

In all our PR and promotional activities we aim to put the spotlight on our exhibitors and will for example be happy to include your information in our press releases.

Speaking opportunities

If you would further like to use the opportunity to present in the *waste to energy* open forum, you need to act now and confirm your participation as soon as possible!
