Stem Cells World Congress

Cancer Stem Cells

Title to be Confirmed

Thomas Zwaka, Assistant Professor, Baylor College of Medicine

Isolation of Cancer Stem Cells Based on Growth and Survival Properties Shared with Normal Tissue Stem Cells: Cell Surface Antigens Useful As Drug Targets

Jennie Mather, Chief Scientific Officer, Raven Biotechnologies

Cancer Stem Cells

Stewart Sell, Senior Scientist, Wadsworth Lab. NYS Dept. Health

Stem Cell Epigenetics

Identification Of Key Pathways And Biomarkers Involved In Human Stem Cell Differentiation By Decoding Promoter Methylation Patterns In Human ES Cells

Jeffrey Falk, Director of Technology applications, Aviva Systems Biology

Regenerative Medicine

Cellular MRI: Tracking The Fate Of Magnetically Labeled Cells Translation From Bench to Bedside

Joseph Frank, Chief Experimental Neuroimaging Section, National Institutes of Biomedical Imaging and Bioengineering and Clinical Center

Use Of Mesenchymal Stem Cells In The Regulation Of Inflammation: Implications For Therapies In The Lung

Mauricio Rojas, Assistant Professor, Emory University

Modeling Myocardial Therapy With Human Embryonic Stem Cells

Harold Bernstein, Professor of Pediatrics (Cardiology), University of California

A First-In-Humans Study Of Safety And Feasibility Of Stem Cell Therapy For AIDS Lymphoma Using Stem Cells Treated With A Lentiviral Vector Encoding Multiple Anti-HIV RNAs

David DiGiusto, Director of Hematopoietic Cell Therapies, City of Hope Medical Center

Stem Cells in Drug Discovery and Development

Consistent Conversion Of Human Amniotic Epithelial Stem Cells Into Functional Hepatocyte Like Cells Using A One Step Differentiation Protocol

Anant Kamath, Chief Operating Officer, Cellular Engineering Technologies

Stem Cells as Fundamental Tools for Drug Discovery and Disease-Related Research

Ziwei Huang, Professor, The Burnham Institute for Medical Research

Pluripotency, iPSC

Putative Ovarian Stem Cells Isolated From Human Adult Ovary And Potential In Vitro Oogenesis

Irma Virant-Klun, Director of In Vitro Fertilization Lab, University Medical Centre Ljubljana

Embryomics: High Throughput Generation And Mapping Of Embryonic Progenitors

Michael West, Chief Executive Officer, Embryome Sciences

Non-Neural Stem Cell Based Modeling Of Gliomas

Deepak Kamnasan, Assistant Professor, Centre de Recherche du CHUL (CHUQ) et Université Laval

Biobanking

Saudi Biobanks - Big Ethical Challenges With Bigger Hopes

Al Jumah, Director, King Abdullah International Medical Research Center

Key Note Presentation

Title to be Confirmed

Carolyn Compton, Director, Biorepositories and Biospecimen Research, National Cancer Institute

Implementation and Operation of the UK Biobank

Paul Downey, Director of Operations, UK Biobank

Harmonizing Processes and Policies for National Cancer Institute-Supported Biorepositories

Jim Vaught, Deputy Director, National Cancer Institute

The Evolution of a High Capacity, Multi-user Sample Management Network

Michael Hogan, Chief Scientific Officer, GenVault Corporation

Other Confirmed Speakers

Title to be Confirmed

Sendurai Mani, Professor, University of Texas

Key Note Presentation

Title to be Confirmed

Bernard Siegel, Executive Director, Genetics Policy Institute

Title to be Confirmed

Anna Spagnoli, Associate Professor, University of North Carolina

Key Note Presentation

Title to be Confirmed

Jan Nolte, Director - Stem Cell Programme, University of California

Title to be Confirmed

Edward Morrisey, Associate Professor, University of Pittsburgh Cancer Institute

Title to be Confirmed

Tao Cheng, Associate Professor, University of Pittsburgh Cancer Institute

Title to be Confirmed

Eric Faulkner, Senior Director, RTI Health Solutions
