Best papers will be selected for publication in the International Journal of Logistics and Transport (IJLT) Vol. 6 No. 1

(Ruth Banomyong and Ungul Laptaned, Editors)

The International Journal of Logistics and Transport is an international forum for the dissemination of research into, and applications of logistics, supply chain, and transport. Papers published in the IJLT have undergone peer review to ensure originality, relevance and timeliness. The journal thus provides a worldwide, regular and comprehensive update on logistics, supply chain, transport, and operations research.

The journal invites research and application papers covering the above areas.

Best papers will be selected for publication in the Operations and Supply Chain: An International Journal (OSCM) Vol. 5 No. 1

(Nyoman Pujawan, Editor)

Operations and Supply Chain Management:

An International Journal (OSCM) publishes high quality refereed articles in the field of operations and supply chain management. The journal invites original contributions that present modeling, empirical, review, and conceptual works. To enable maximum dissemination, the articles are freely accessible through the internet to anybody and a limited printed version will be available at cost. The journal is published in line with the OSCM international conference that was first organized in Bali in 2005.
