

NEWSLETTER:

INSIDE-POReS
IN-Situ Study and DEvelopment
of Processes Involving PORous Solids

February
24-28 2007

CERTH Thessaloniki - Greece

Workshop Objectives are:

- *to discuss the state of the art on in situ characterization and monitoring of nanoporous materials, during their preparation and use as sorbents, catalysts and membrane, and in novel processes including energy conversion, storage or sensing applications. Methodologies for the synthesis of nanoporous solids will be also discussed.*
- *to spread the scientific knowledge from the EC Network of Excellence INSIDE POReS and to provide training at doctoral and postdoctoral levels in processes involving nanoporous materials, their preparation, and in situ and/or ex situ characterization.*
- *to provide the change for interaction to scientists and technicians working in the field of porous materials.*

FIRST ANNOUNCEMENT

Date: 30 October 2006

Dear Network Partners

After the success of the 1st International School and Workshop in Montpellier, the 2nd International School and Workshop of the Network of Excellence Inside Pores will be organized by the Center of Research and Technology-Hellas (CERTH) in Thessaloniki, from the 24th to the 28th of February 2007.

The workshop site operates under the address <http://www.insidepores-workshop.gr> and is being continuously broadened or updated. You may already refer to the website for any available useful information concerning deadlines etc.

Registration and extended abstract submission will take place electronically through the conference website. You will be separately notified by E-mail as soon as the appropriate tools become active.

For any additional information or questions that might eventually arise please do not hesitate to mail or phone directly the organization committee

(E-mail: insidepores@cperi.certh.gr,

tel.: x-30.2310.498257 or X-30.2310.498114)

We are looking forward to meet you all in Thessaloniki for a fruitful and exciting school and workshop.

With kind regards

On behalf of the organizing committee

V. Zaspalis, L. Nalbandian
