

MONASH University
Information Technology

21st International Conference on Information Systems Development (ISD 2012)

Monash University Prato Centre, Italy
29 – 31 August 2012

Building Sustainable Information Systems

The theme of the 21st ISD Conference explores ISD from the perspective of sustainability. Sustainable IS is a catch-all term used to describe the development, construction, management, use and disposal of IS and the ICT that underpins it. As a result, the term has many different meanings. Nevertheless Sustainable IS is an emerging theme in academic research and industry practice in response to individual concerns for the environment and the embryonic regulatory environments being enacted globally to address the environmental impact of ICT. In this conference we intend to bring together the diverse research around the development of Sustainable IS.

THE VENUE

The conference will be held at the Monash University Prato Centre, Italy, which is just 20 minutes from Florence, in Tuscany. The Centre is housed in the 18th century Palazzo Vaj in the historic centre of Prato.

THE ISD CONFERENCE

The International Conference on Information Systems Development (ISD) is the pre-eminent conference in this field for academics and professionals, covering technical, organisational, business and social issues. It is ranked an A-conference by the Australian Government, confirming its status in its field.

CONFERENCE TRACKS

- Cloud Computing
- The Changing Landscape of Information Systems: Properties of a New IS Ecology
- Methodologies for Design within Complex Environments
- Green IS - Information Systems for Sustainability
- Model-driven Engineering in ISD
- Sustainable ISD Project Management
- Sustainable Knowledge Management

General Track

Papers on topics other than those of the listed tracks are also welcome to be submitted to the General Track. This can include, but is not limited to, the following topics:

- Issues in ISD Education & Training
- ISD for social inclusion
- Innovation in ISD
- Development of Web 2 applications and services
- Agile and participatory development
- ISD Methodology
- Systems Analysis & Design
- Managing IS Development
- Business Process Management (BPM)
- Emerging issues in ISD

PAPER SUBMISSIONS

We invite submission of original, unpublished research papers (completed research and research-in-progress) in the areas defined in the conference track listed above. All submissions must be in English and be made via the ISD 2012 EasyChair online submission system. All submitted papers will be double blind, peer reviewed and accepted papers will be published as a monograph by Springer.

IMPORTANT DATES

Paper submission deadline:	20th April, 2012 4 th May, 2012
Notification of paper acceptance:	15 th June, 2012
Submission of final paper:	29th June, 2012 13 th July, 2012
