

On 22<sup>nd</sup> January 2009, in Brussels, the founding of the European Nanoporous Materials Institute of Excellence INSIDE-PORes, ENMIX was signed by 11 European research centres and universities. CERTH- CPERI, represented by the Laboratory of Inorganic Materials, is one of the founding members.

The objectives of ENMIX are to promote excellence and to coordinate research in the area of preparation, characterization and industrial applications of Nanoporous Materials.

**Founding of the European Institute on Nanoporous Materials, 22<sup>nd</sup> January 2009**

**ENMIX**

University of Alicante-Spain    University of Hannover-Germany    University of Antwerp-Belgium  
University of Leipzig-Germany    CNRS-France    Demokritos-Greece    CNR-Italy  
University of Stuttgart-Germany    University of Delft-the Netherlands    CERTH-Greece    SINTEF-Norway

The foundation act was followed by the election of the Board of Directors. University of Antwerp, Universität Stuttgart, CERTH and Universidad de Alicante are the members of the Board. CERTH is representative by Dr. V. Zaspalis, director of Laboratory of Inorganic Materials.

The first meeting of the Board of Directors is scheduled on 18<sup>th</sup> February 2009 in Barcelona.
