Presentation

Within the biotech scene submerged by a multitude of events, BioSquare has become one the most appreciated and attended partnering convention worldwide. Positioned as the industry's premier spring partnering conference, BioSquare attracts top business development executives in biotech and pharma, as well as high ranking financiers. This three-day event features a full programme including panel discussions led by corporate executives and biotech experts as well as workshops and company presentations. BioSquare offers a sophisticated internet partnering software system, designed for the industry, allowing conference participants to organize and schedule meetings well ahead of the event, and to optimize the opportunity to create sustainable, long term business partnerships.

4 Areas of focus

- Healthcare
- Ag/food
- Enabling technologies/tools
- Environment

4 Partnering goals

- B to C (Biotech to large Corporations / pharma)
- B to B (Biotech to Biotech)
- B to F (Biotech to Finance)
- B to R (Biotech to Research)

Why join BioSquare 2007?

- **Pre-scheduled one-on-one meetings** with pharma executives, investors and biotechnology companies
- **Selected company presentations** from leading international biotechs
- **Enhanced conference partnering software** tailored to the life sciences sector
- **High profile** sponsor exhibits
- Unparalleled **networking opportunities**
- Panel discussions and workshops **featuring industry experts**

BioSquare Partnering System

BioSquare focuses on your expectations and continues to help you make the most of your participation by initiating a collaboration with Technology Vision Group. Indeed, the partnering system has been specifically adapted to BioSquare participants.

The intranet system allows participants to contact each others and pre-arrange private One-on-One meetings well ahead the event. The search engine enables you to identify and select potential partners, thanks to pre-defined dropdowns and/or keywords. Company type, therapeutic area, partnering goals and much more possibilities are offered to facilitate your screening of potential partners. BioSquare sophisticated internet partnering system specifically developed for the industry has been designed to facilitate your participation to the event.

BioSquare partnering system will be implemented with new functions :

- It will allow you to save your search criteria and researches to improve the efficiency of your screening.
- You will be also able to integrate within your profile a video presentation.

Since its first edition, constant improvement being our main concern, BioSquare team has grown with the event, enabling us to provide you with the most efficient tool for your partnering success.

In cooperation with  **biopartnering.com**
contact, connect, collaborate.

“In the biotech field, there are a few events you must attend and a partnering event such as BioSquare is undoubtedly one of those. We are supporting BioSquare since its creation in 2001 to give you again this year all possibilities to find partners in your biotechnology endeavour.”

Jo Vanhemelrijck | General Secretary | EuropaBio

“BioSquare is our historical partnering reference in Europe. Undoubtedly business orientated, it is the place to be to initiate business collaborations and to network”

Philippe Grand | European Biotech Industry Leader | Ernst and Young

“We are very pleased to attend this year’s BioSquare. JETRO support Japanese firms for their technological alliances in Europe. The feedback from Japanese companies has been positive. We are firmly convinced that this year’s BioSquare will be another success.”

Hiroshi Tsukamoto | President | JETRO

“BioSquare is an important event because business meets business on a global scale. Our activities at the previous editions have helped to broaden our global network in the field of industrial applications of biotechnology. I am again looking forward to meet respected and well-known colleagues from different backgrounds and discuss new and relevant developments with respect to the Life Sciences Business with them. I recommend you do the same!”

Volkert Claassen | Vice-President White Biotechnology | DSM Innovation Center

“BioSquare is a useful event for partnering activities between emerging companies and leading groups in this sector.”

Marc de Garidel | Président | AMGEN France

“Serono has sponsored BioSquare since 2001. The meeting has been an important platform for our business contacts and image. I recommend that biotech professionals, particularly those in business development, attend BioSquare to extend their network and to initiate business.”

Gary Buell | Global Head Search & Evaluation, Corporate Business Development | Serono
