

# 4th Green Chemistry & the Consumer symposium

## Measuring Green

### Green performance indicators across the chemical product lifecycle

28th June 2007  
The Kings Manor, York, UK

RSC | Advancing the Chemical Sciences

The Green Chemistry and the Consumer annual symposia bring together a diverse audience of representatives from consumer product supply chains, academics, NGOs, government, trade associations, media and other stakeholders to learn about green chemistry solutions for sustainable product supply chains.

The fourth symposium, 'Measuring Green: Green performance indicators across the chemical product lifecycle', will explore key criteria for measuring the green credentials of chemical products at all stages in their lifecycle, including case studies on successful methods developed by industry and challenges in practice.

#### Programme of activities

This one-day symposium will consist of a blend of both presentations and breakout sessions delivered by:

Dr Richard Henderson, Manager, Sustainable Technologies, **GlaxoSmithKline**

Dr Peter Saling, **BASF**

Peter Malaise, Concept Manager, **Ecover**

Peter Jones, Director, **Biffa Waste Services** & Chairman, **Resource Efficiency Network**

Dr Nick Farrar, Chemicals Advisor, **B&Q plc**

Nigel Stansfield, Innovations Director, Europe, **InterfaceFlor**

Dr Lauren Heine, Director of Applied Science, **GreenBlue**

Prof. Adisa Azapagic, Professor of Sustainable Chemical Engineering,  
**University of Manchester**

Details of other speakers will be announced shortly. The symposium will conclude with a wine reception and poster session providing an opportunity for networking.

#### The Venue

The Kings Manor in York is a group of medieval buildings that are one of historic York's most attractive sites and served the Tudors and Stuarts as a seat of government (<http://www.york.ac.uk/admin/presspr/kmanor/>).

#### Who should attend?

The symposium is open to all and is aimed at organisations and individuals with an interest in green chemistry and sustainable chemical products. The event will provide an invaluable opportunity for mutual learning and technology transfer.
