

Technical Programme

The Symposium is organized in order to honor the scientific and educational contributions of Professors *Anastasios Karabelas* and *Stavros Nychas* to Chemical Engineering in Greece. The Symposium aims to bring together researchers working in the following areas of chemical & biochemical engineering:

- Energy
- Environmental Technologies
- New Paradigms in Chemical / Biochemical Production
- Process Systems Engineering
- Functional Materials & Nanotechnologies
- Biomedical Advances

Abstract Submission

The Symposium will consist of oral presentations given by invited speakers.

A Poster exhibition is also foreseen and thus all participants are invited to submit abstracts related to one of the main symposium topics with an emphasis on the Symposium Theme: “*New Frontiers in Chemical & Biochemical Engineering*”.

The abstracts should be submitted electronically in WORD format to the conference secretariat. They must be prepared in accordance with the instructions given below:

- ✓ The title, authors and affiliations should be centered in bold print at the top of the first page.
- ✓ The printed abstract should fit just inside a 14cm x 21cm rectangle.
- ✓ The length of the submitted abstract should not exceed 2 pages.
- ✓ Please use 12 point Times New Roman fonts.

Selected Symposium papers will be submitted to *Industrial & Engineering Chemistry Research* for review and subsequent publication in a Special Issue of *I&EC Research*.

Deadlines for Abstract Submission

30 September	Submission of abstracts
15 October	Notification of acceptance

Language

English will be the official language of the conference.
