08:00 – 18:00

Registration Open (Capital Hall, ICC)

07:45 – 08:45

Satellite Symposium: Introducing a new approach in AD

Rooms 14, 15 & 16, Capital Suite

Sponsored by Nutricia

Chair: C Ballard

	Clive Ballard		Introduction – setting the scene
	I McKeith		Hallmarks of AD, research and therapies so far
	P Kamphuis		Introducing a new concept in AD, targeting synapse loss
	R Blesa		A clinical trials program addressing synapse loss

09:00 – 10:30

Plenary Session

Preparing for the Dementia Epidemic

Room 7-12, Capital Suite

Chair: Maria Van der Hoeven

09:00	Glenn Rees	PL01	Alzheimer's Associations as Agents of Change
09:30	Paul Burstow	PL02	Preparing for the Dementia Epidemic: a Government Response
10:00	Martin Prince	PL03	Global Research for Global Action

10:30 – 11:00

Tea, Coffee, Exhibition and Posters

Capital Hall

11:00 – 12:30

Plenary Session

New diagnostics / New Lexicon of Alzheimer's Disease

Room 7-12, Capital Suite

Chair: Alistair Burns

11:00	Paul Aisen	PL04	Diagnosis of Early Alzheimer's Disease: Implications for Drug Development
11:30	Bruno Dubois	PL05	Diagnosing early Alzheimer's disease: the IWG criteria
12:00	Patricio Fuentes	PL06	Is Early Diagnosis of Alzheimer's Disease Possible

			Without Biomarkers?

ADI Workshop: 10/66 Dementia Research Group

Room 17, Capital Suite

Chair: Martin Prince

The 10/66 Dementia Research Group has been working continuously since 1998 to develop an evidence-base for policymakers and practitioners, to encourage the development of more and better care for people with dementia worldwide.

This year's symposium allows us to pause and reflect upon what we have learnt, and to receive comments and feedback from ADI's broad membership on the past and future direction of the research program.

The group's 80 publications to date have focussed upon findings from our pilot studies in 26 centres, and our population-based research studies in 12 sites in India, China, Latin America and Africa. The evidence generated has formed an important part of ADI's World Alzheimer Reports on

	<p>the global prevalence of dementia, the numbers affected, and the societal impact and costs. Incidence studies in China and Latin America were completed in 2010, with findings on new cases, and risk factors now also beginning to emerge.</p> <p>A new 10/66 study, funded by the UK Department for International Development and the Economic and Social Research Council (DFID/ ESRC) will be focussing on the economic impact on wider households of the onset of needs for care among older people in China, Nigeria, Mexico and Peru.</p> <p>The group is also focussing, increasingly, on the need to develop and evaluate simple and helpful community-based interventions for people with dementia that do not rely upon specialists to deliver them. The 10/66 'Helping Carers to Care' intervention is a starting point, but how do we ensure that this is integrated into a widely available package of comprehensive diagnosis, assessment, care and support, across the course of the illness?</p>

17:45 – 18:45

Satellite Symposium: The Living Environment: Providing Dementia-Friendly Settings Within Care Homes And Hospitals - Innovation Aligned With Tradition

Sponsored by Bupa Care Services

Room 14, 15 & 16, Capital Suite

Chair: TBC

	<p>Designers should view the needs of people living with dementia as being no different from anybody else and then progress to helping them live with high levels of cognitive, sensory and physical disability. Through the medium of visual and video material, and the interactive website bettercarehomes.org this symposium will illustrate how designers and care providers need to balance support for failing abilities through the creation of prosthetic and enriched environments with a requirement to design pleasing and meaningful buildings. The symposium will look at design initiatives that have helped provide a sense of belonging in private space, delivered supportive interior layouts, and transformed shared communal areas into meaningful 'worlds' to visit.</p> <p><i>Speakers:</i> Graham Stokes, Divisional Director of Dementia Care, Bupa Care Services Gregor Timlin, Senior Research Associate, Helen Hamlyn Centre for Design, Royal College of Art Sarah Waller, Programme Director, Enhancing the Healing Environment Programme, The Kings Fund.</p>

Satellite Symposium: Government Alzheimer Plans: Early Returns on Advocacy

Sponsored by: Alzheimer Immunotherapy Programme

Room 14, 15 & 16, Capital Suite

Chair: Jacob Roy Kuriakose

This symposium will bring together the first hand accounts of the positive policy change and public awareness of the crisis of dementia facilitated by and amplified by government Alzheimer plans at the city, sub-national and national level. Hear from experts in this nascent area of policy development on the processes used to create engagement and initial results from the plans.

Speakers:

Convener and Moderator Jacob Roy, Founding Chair, Alzheimer's and Related Disorders Society of India, Chair-elect Alzheimer Disease International

The Emerging Policy Framework in Published Plans: Michael Splaine, Public Policy Adviser, ADI

From an NGO Plan to Government Action: The New Zealand Experience: Johan Vos, CEO Alzheimer's New Zealand

A Sub-national Plan in the Canton of Vaud Switzerland: Birgitta Martenson, CEO, Alzheimer Suisse

Update on the UK National Dementia Strategy: Alistair Burns, National Clinical Director for Dementia, UK

Alzheimer Planning in a Large City, San Francisco, CA, US: Ruth Gay, Public Policy Director, Alzheimer's Association Northern California and Northern Nevada

Plans in the Context of ADI's Global Strategy with the World Health Organization: Marc Wortmann, Executive Director, ADI

ADI Workshop: Global Campaign on Alzheimer's

Room 17, Capital Suite

Chairs: Marc Wortmann

In this workshop we will present the world's first global awareness and fundraising campaign for Alzheimer's, that will be piloted with five ADI-member associations in Brazil, Canada, Greece, India and New Zealand later this year. The campaign aims to change the way we look at the disease and will set a target to double the non-pharma research budget for Alzheimer's. You will see the campaign, and find out how you can be involved. Don't miss this session if you work for or are involved in an Alzheimer association!

Chair: Marc Wortmann, Executive Director ADI

Speakers: Jon Duschinsky, bethechange; Ray Barrett, Hey Harry

ADI Workshop: Working with Volunteers

Room 17, Capital Suite

Chairs: Jane Cziborra

Across the world people give their time freely to help others in need, whether on a weekly basis, once a month or once a year. This is a global force of positive community action that deserves the best support we can provide.

In this workshop you will meet volunteers and employees from Alzheimer's Society in the UK, together with a colleague from Alzheimer Nederland.

You will learn about developments in volunteer recruitment and support, and hear about the online training experiences of the United Kingdom and Netherlands. You will also get to know what volunteering is like at local community level too, with UK volunteers sharing their experiences.

It will be an opportunity to learn, share ideas and be inspired. From talking action to taking action, ensuring that time offered by volunteers is converted into something that makes a real difference.

Volunteering is at the very heart of society. We want to keep it that way. We want to do more of it. We want to do it better. If you agree, then join us.

This workshop is ideal for you if you want:

- ideas about volunteer recruitment and support and how to make it better
- to understand how online learning can revolutionise your volunteer training

Bring plenty of thoughts and ideas.

	Speakers: Andrew Oldham, Christine Cribb and Willem Richter.

	We look forward to meeting you!
